Admati, A. R., 3
Allen, F., 229
Bagnoli, M., 89
Campbell, J. Y., 195
Duffie, D., 329
Dybvig, P. H., 67, 377
Gale, D., 229
Giammarino, R., 265
Hansen, R. S., 289
Hirshleifer, D., 173
Huang, C.-f., 377
Jarrow, R. A., 137
Jorion, P., 427
Kamara, A., 357
Kumar, P., 111
Lewis, T., 265
Lipman, B. L., 89
Lo, A. W., 41
Lakonishok, J., 403
MacKinlay, A. C., 41, 137
Nachman, D. C., 311
Noe, T. H., 331
Pfleiderer, P., 3, 448
Ramaswamy, K., 137
Shiller, R. J., 195
Smidt, S., 403
Williams, J., 1

Subject Index

Announcement effects
  equity, 331
Arbitrage
  absence of
    nonnegative wealth and, 377
Arbitrage pricing theory (APT)
  preferences, continuity, and, 159
Asset pricing
  market trading structures and, 357

Book Reviews
  Finance Theory, 449
  Foundations for Financial Economics, 447
  Security Markets: Stochastic Models, 329

Capital asset pricing model
  preferences, continuity, and, 159
Capital structure
  signaling game equilibria and, 331
Commodity futures markets
  residual risks, 173
  risk premia, 173
Consumption plans
  feasbile
    nonnegative wealth and, 377
Contracts
  forward and futures
    trading structures, 357

Differential market structure hypothesis, 357
Discount factors
  expectation of future dividends and dividend-ratio model, 195
Dividend-price ratio model
  expectation of future dividends discount factors and, 195
  measured real discount rates, 195
  real dividend growth, 195
  unexpected factor, 195
Dividends
  information content of
    shareholder–manager conflict and, 111
  smoothing, 111

Equity
  announcement effects and, 331
  asymmetric information, 265
  financing, 331
  negotiated financing, 265
  pooling and separating equilibria, 265
  the rights demise, 289
Equity underwriting paradox
  transaction-cost conditions and, 289
Exclusion
  inefficient takeovers and, 89

Finite-stockholder game
  limits of
    exclusion and, 89
Foreign exchange market
  empirical distribution of returns, 427
  stochastic processes, 427

Index-futures arbitrage
  behavior of stock index futures prices and, 137
  transaction costs, 137
Intraday patterns
  S&P stock index futures prices, 137
  theory of, 3

Markets
  trading structures
    asset pricing and, 357

Options
  approximate spanning and, 311
  contingent claims and, 311
  spanning and completeness with, 311

Payoff distribution pricing model (PDPM)
  portfolio strategies, 67
Portfolios
  inefficient strategies, 67
  models of returns, 67
President's message, 1
Price variability
  theory of intraday patterns, 3

Raiders
  successful takeovers without exclusion, 89
Random walk hypothesis
  test
    stock market prices, 41
Rates of return
  seasonal patterns
    anomalous, 403
Risk premia
  coefficient of variation, 173
  commodity futures, 173

Securities
  optimal design, 229
  transaction costs, 229
Shareholder–manager conflict
  information content of dividends and, 111
Signaling equilibria
  coarse
    existence of, 111
Signaling game equilibria
  capital structure and, 331
Stock indexes forward contracts, 137
Stock market
  empirical distribution of returns, 427
  portfolio strategies
    inefficient, 67
  stochastic processes, 427
  weekly returns
    test of random walk hypothesis, 41

Takeover model
  single-raider
    success without exclusion, 89
Trading patterns
  intraday, 3
Treasury-bill markets
  market trading structures and asset pricing, 357

Underwriting method
  public offerings, 289
    abnormal price performance, 289
  rights offerings, 289
    abnormal price performance, 289

Volume variability
  theory of intraday patterns, 3

Wealth
  nonnegative
    absence of arbitrage, 377
    feasible consumption plans, 377
